

Operators Daily Log

DATE: 10-24-01 Wednesday

Time: Activities:

00:01 OPMPK on duty.

00:02 Darren from OPG called said that Time weighted Realtime LBMP has not been updating. The CSV file doesn't have all of hour 7, the html file has nothing in it and the pdf does not have all of hour 18. It says that it was last updated at 23:17 but I don't see that has updated.
Since it is so close to the InfoRep jobs taking off I will watch them and whether the web is updated. If it is not I will contact Fred T. and a price update might be in order. (OPMPK)

00:25 The InfoRep jobs ran successfully but did not update the web.

00:30 Ran a price update for 10/23/01 but this did not update the Time Weighted RealTime Integrated LBMP pages. Called Fred Back up and he said he would take a look into it. Gave Darren a call back so he didn't think we had forgot about him also. (OPMPK)

01:06 Auddump ran successfully. (OPMPK)

01:16 The Time Weighted RealTime Integrated LBMP pages have been updated. Darren of OPG was given a call back notifying him of this. (OPMPK)

01:30 Daytape was started. After about 5-10 min the batch screen showed there was a input output error. The batch screen asked if I wanted to move the tape from 02A1 to 02A0. I replied yes the tape ejected and the new drive became available for the daytape so I switched drives and the job finished successfully. (OPMPK)

01:34 The message SLS0361 swap to non library 2AO, 2A2, 2A3 came up on the batch screen. I will send Tim a email notifying him of this.

02:12 Daymerge ran successfully. (OPMPK)

03:29 Pros10 ran successfully. (OPMPK)

06:30 Rory Scally on site.

06:55 ReClosed HAM for BME operator.

07:40 IPL'D PROOF for Barry.

07:55 IPL'D QA.

08:15 LOAD FORECAST and CUSTOMER SERVICE web pages are not updating. E-mail sent to support.

09:30	Fred and Vinh stopped by and the problems with the web pages not updating is due to a space shortage on CLOUD 9. They will increase the space. (RS)
11:27	IPL'D ONLINE system due to SCD not updating.(RS)
11:30	SCD still not updating, Mike Silver notified. (RS)
13:05	MoveCopy for Silver in an attempt to fix the above SCD problems. (AI)
13:31	IPL'D ONLINE system, SCD not updating. (RS)
13:34	ONLINE SYSTEM BACK UP, SCD now working.(RS)
18:30	Shift Turnover
